

Tenure-Track Assistant Professor of Environmental Health Sciences

The Johns Hopkins University Bloomberg School of Public Health invites applications for a full-time, tenure track faculty position at the rank of Assistant Professor in the Department of Environmental Health Sciences. Candidates must hold a PhD degree in epidemiology or equivalent.

Candidates with specific interest and experience in applied and population based research in any of the topical areas of environmental epidemiology are encouraged to apply. While all areas relevant for environmental epidemiology will be considered, the Department is particularly interested in strengthening its research enterprise in the following focus areas: assessment of the health effects of the built environment, epidemiologic approaches to the characterization of sustainable communities, and health effects of climate change, environmental epigenetic epidemiology and integrative and molecular epidemiology.

The Bloomberg School of Public Health and other Johns Hopkins University Institutions constitute a highly interactive and multidisciplinary research environment with exciting opportunities for collaboration, including environmental and occupational health, risk and exposure sciences, basic sciences, and biostatistical and computational methods.

Successful applicants will be expected to develop and sustain a productive, extramurally-funded research program in the field of environmental epidemiology. Applicants for this position must have a record of original research scholarship, possess excellent written and communication skills as evidenced by peer-reviewed publications, teaching and presentations at professional meetings, and demonstrate the potential to establish and maintain research funding. This faculty position will primarily involve research, but over time will also include participation in the education programs of the Department of Environmental Health Sciences.

The Johns Hopkins University is an equal opportunity/affirmative action employer committed to recruiting, supporting, and fostering a diverse community of outstanding faculty, staff, and students. All applicants who share this goal are encouraged to apply.

Applicants should submit: 1) a current CV; 2) a 1-2 page statement outlining research and teaching interests; and 3) the names and contact information for 3-5 referees who could be contacted when appropriate. These materials should be sent electronically, with the subject line **EHS ENV EPI Search**, to EnviroEpi@jhu.edu.

Brian Schwartz, Chair, Search Committee, Department of Environmental Health Sciences, Johns Hopkins Bloomberg School of Public Health, 615 North Wolfe Street, Room E7527, Baltimore, MD, 21205.
