

ISEE Endorses JPC-SE Position Statement on Asbestos

Upon recommendation of the ISEE Policy and Ethics and Philosophy Committees, the ISEE has joined with other epidemiology societies and organizations in endorsing the [Position Statement on Asbestos from the Joint Policy Committee of the Societies of Epidemiology](#) (JPC-SE).

The position statement puts forward, from an epidemiologic perspective, the clear evidence confirming that all forms of asbestos should be banned, and calls for a global ban on mining, use, and export of all forms of asbestos.

[The Joint Policy Committee \(JPC\) of the Societies of Epidemiology \(SE\)](#) is a consortium of epidemiology societies and organizations, national and international in scope, organized to coordinate and unify joint policy actions among societies of epidemiologists, globally.
